

Case Study: UK Transportation Law Enforcement

The Challenge:

Protecting over a billion passenger journeys each year, which involves centralizing over 3000 locations. The core system capability is access to live video from 10,000 CCTV cameras for forensic investigation management.

Integrating:

- Phase 1 - 10,000 CCTV Cameras
- Nice DVR & NVR
- Tecton DVR
- TYCO TVNP3 Video transport protocol
- Dedicated Micro DVR
- Adpro FastTrace
- Barco Video Wall 4.5
- Sira View Forensic Analysis Tool
- Milestone NVR

Benefits:

- Common platform - central monitoring and storage capability for forensic data significantly increasing investigation preparedness
- Increased operational efficiency leading to reduced costs
- Integration of new technologies - faster detection of incidents
- Aggregation of intelligence from multiple systems for increased situation awareness
- High levels of emergency preparedness
