

Case Study: Major US City

The Challenge:

A public safety program utilizing IPSecuritycenter to create a unified control center where all of the security requirements of multiple agencies within the city area can be managed and processed. Agencies involved include:

- Protective Services
- Public Schools
- Department of Transport
- Police Department
- Homeland Security Emergency Management

Integrating:

- 5,200 CCTV Cameras
- Cisco VSOM DVMS 5.1– CCTV
- Pelco Endura DVMS 1.04 – CCTV
- General Electric DVMRe
- Dedicated Micros Sprite II – CCTV
- Bosch Allegiant Analog Matrix LTC 8900/CM6800 2.62
- ActiVu Video Wall 4.5
- GE PP 4.0 SP3 – Access Control System
- DMP SCS-1R Intrusion Panel
- ShotSpotter Audio Analytic Gunshot Detection System 5/6

Benefits:

- Common platform with central monitoring and storage capability to share video data
- Increased operational efficiency leading to reduced costs
- Integration of new technologies allows faster detection of incidents
- Aggregation of intelligence from multiple systems for increased situation awareness
- High levels of emergency preparedness
